Education

Software Engineer
Bachelor degree
Isfahan Technical and
Engineering UNI
2022-2026

Skills

- Backend:**

 - C#.NET
 - ASP.NET Core
 - WebApi, MVC
 - Minimal Api
 - EF Core
 - Dapper
 - Linq
 - CQRS
 - Logging
 - XUnit
 - Identity
 - JWT
 - RabbitMQ
 - Background Service
- Architecture:**

 - Clean Architecture
 - SOLID Principles
 - Design Patterns
 - Domain-Driven Design (DDD)
 - Microservices
 - System Design
 - Event-Driven Architecture
 - REST API Design
- Databases:**

 - SQL Server
 - PostgreSQL
 - Redis
 - MongoDB
 - Database Design
 - Query Optimization
 - Indexing
- Frontend:**

 - Angular
 - Typescript
 - Javascript
 - HTML/CSS
 - SCSS
 - Tailwind
 - Bootstrap
 - RWD
 - RxJS
- Tools:**

 - Visual Studio
 - SSMS
 - VS Code
 - Postman
 - Swagger
 - Jira

DevOps & Cloud

- Docker
- Git
- GitHub
- CI/CD (Learning)
- Linux (Learning)
- Nginx (Learning)
- Microsoft Azure (Learning)
- Kubernetes (Learning)

Arman Darsanj

.NET Backend Developer

.NET Developer with experience building backend and full-stack web applications using ASP.NET Core, Angular, and SQL Server. Passionate about backend engineering and currently deepening expertise in software architecture, system design, cloud technologies, and DevOps practices. Focused on developing clean, maintainable, and scalable software solutions.

Work Experience

- Jul 2025 - Jan 2026

Backend Developer (Kasra Sarmad)

Warehouse Management System (WMS)

 - Developed a Warehouse Management System using ASP.NET Core MVC and SQL Server.
 - Implemented authentication and role-based authorization with Identity.
 - Optimized database design and queries to improve performance and scalability.
 - Applied clean architecture principles and integrated logging for maintainability and monitoring.
- May 2024 - Mar 2025

Backend Developer (Freelance)

Accounting Management System

 - Developed an Accounting Management System using ASP.NET Core Web API and SQL Server.
 - Implemented CQRS, authentication, and role-based authorization to improve maintainability and security.
 - Designed and optimized database structure, queries, and indexing strategies to enhance performance and scalability.
 - Integrated structured logging for monitoring and troubleshooting application behavior.
 - Containerized the application using Docker and applied clean, scalable backend architecture principles.
- May 2023 - Jan 2024

Angular Developer (DemisCo)

AcorexUI Platform

 - Contributed to the development of a reusable Angular UI component library.
 - Developed and maintained reusable components to improve consistency and development efficiency across applications.
 - Collaborated with the development team to enhance component architecture, usability, and maintainability.
- Mar 2021 - Sep 2022

Backend Developer (Personal)

Job Portal Platform

 - Developed a Job Portal platform using ASP.NET Core MVC and SQL Server.
 - Implemented authentication, role-based authorization, and job application management features.
 - Optimized database performance and applied scalable backend design principles.

Certifications

- C#.NET Certificate - TVTO**

Jul 2020 - Oct 2020
- JavaScript Certificate - TVTO**

Dec 2020 - Mar 2021
- C#.NET Certificate - SoloLearn**

May 2022
- Angular Certificate - SoloLearn**

Dec 2023
